

The following Bill which is set out for introduction into the National Assembly is published for general information.

**THE CONSTRUCTION INDUSTRY DEVELOPMENT BOARD  
(AMENDMENT) BILL  
(No. V of 2021)**

**Explanatory Memorandum**

The object of this Bill is to amend the Construction Industry Development Board Act so as to provide for a more appropriate and modern legislative framework in view of the accelerating development in the construction industry.

2. Accordingly, the Bill makes provisions, inter alia –
- (a) for the registration of providers of construction works and construction services, and suppliers of construction materials, equipment, plant and labour for construction purposes;
  - (b) to the effect that nothing shall preclude a professional architect, a professional quantity surveyor and a registered professional engineer from taking or using the name, description or title of “consultant” in his respective field;
  - (c) for additional powers to be given to the Construction Industry Development Council in determining applications for registration under the Act;
  - (d) for empowering the Construction Industry Development Council to issue a compliance notice to a person who offers his services as a consultant, contractor, service provider or supplier without being registered under the Act, ordering that person to make an application for registration;
  - (e) for empowering the Construction Industry Development Council to compound, with the consent of the Director of Public Prosecutions, some specific offences committed by a person where the person agrees, in writing, to pay such amount not exceeding the maximum penalty specified for the offence as may be acceptable to the Council;

- (f) for empowering the Construction Industry Development Council to review the registration of every consultant, contractor, service provider and supplier, and the power to collect statistical information in the construction industry; and
- (g) for matters connected, incidental and related thereto.

3. In addition, a foreign architect will be allowed to practise as an architect in Mauritius without the need for him to enter into a joint venture agreement with a local architect or local firm of architects, as is the case for a foreign engineer and a foreign quantity surveyor. This amendment has been rendered necessary with a view to affording the same treatment to all professionals in the construction industry and for ease of doing business.

4. Consequently, the Building Control Act, the Professional Architects' Council Act, the Professional Quantity Surveyors' Council Act and the Registered Professional Engineers Council Act are being amended.
